

# ENERGY SMART HOME

## REBATES for ENERGY SAVINGS

## 2010 Home Improvement Incentive Program

*If you have a home **ENERGY AUDIT** and complete the recommended improvements, you can reduce energy consumption, lower your electric bill and may become eligible to receive rebates.*

North Attleborough Electric Department (NAED) is offering our residential customers rebates on insulation upgrades, ENERGY STAR window and storm door replacements through the end of the year.\* NAED encourages you to start saving energy by calling NAED at 508.643.6310. **A home ENERGY AUDIT must be conducted before you are eligible** to receive a rebate. When the energy conservation specialist conducts an **ENERGY AUDIT** of your home, you will receive valuable information on how to save energy right away.

Then you can save even more by sending in your application for the Energy Smart Home Incentive Program from NAED, your locally-owned utility.

\*NAED's Home Improvement Incentive Program is effective January 1, 2010 through December 31, 2010, or when incentive program funds are expended. LIMIT: ONE rebate of 50% of the cost up to \$500 per NAED customer of record per calendar year.

### How does the program work?

NAED's Home Improvement Incentive Program provides you with energy conservation information about your home. Call NAED at 508.643.6310 to obtain information about energy efficiency, renewable energy and specific information about your own home's performance.

Callers are asked questions to determine what kind of assistance and services they need and are given information about simple ways to save energy in and around the home. Customers can also go to [www.naelectric.com](http://www.naelectric.com).

### As simple as A-B-C: Audits Before Cash

If energy improvements are needed, the caller is referred to the next step of the program. This includes an **ENERGY AUDIT** of your home's heating and hot water systems, shell insulation, appliances, windows, doors and lighting. An energy conservation specialist conducts the audit by walking through the home, demonstrating ways to save energy. After the audit, a computerized report is given to the homeowner recommending improvements that save energy. When some or all of the recommendations are done by the homeowner or a contractor, the customer completes the Application Form and submits it to NAED.

\*This program is effective January 1, 2010 through December 31, 2010, or when funds are expended. Limit: ONE rebate of 50% of the total cost up to \$500 per NAED customer of record per calendar year.

\*\*U-factor of windows must be 0.35 or below.

### What kinds of insulation, door and window projects qualify for incentives?

To qualify for a rebate, the project must come from the recommendation made in the Energy Audit, and must be installed within the NAED service area before the end of the year\*.

The following insulation, window and door replacement types are the only improvements that qualify for rebates under NAED's program:

INSULATION & WINDOW TYPES
• Attic Insulation
• Basement Insulation
• Rim Joint Insulation
• Wall Insulation
• Heating System Pipe Insulation
• ENERGY STAR® Window Replacement**
• ENERGY STAR® Door / Storm Door Replacement

### Remember these simple steps:

1. Contact NAED at 508.643.6310 to participate in the program.
2. Schedule an ENERGY AUDIT, if you qualify.
3. After the ENERGY AUDIT, complete the qualifying work between January 1, 2010 and December 31, 2010. Limit: ONE rebate of 50% of the total cost up to \$500 per NAED customer of record per calendar year.
4. Complete the Home Improvement Incentive Application; attach original sales receipts, contractor work orders and proof of payment. Mail or bring to NAED at 275 Landry Avenue, North Attleborough, MA 02760-3501; Attn: ESH-2010.
5. You **will be** called to schedule a post-installation inspection and a check will be issued. NAED reserves the right to inspect the installation premises or otherwise verify installation of the insulation, windows or doors.
6. Please allow 4-6 weeks for processing incentive payments for qualified applicants.

## Yellow ENERGY STAR® EnergyGuide Label

### What's in the EnergyGuide Label?

Information about features, capacity, and size.

Based on standard U.S. Government tests

# ENERGYGUIDE

Clothes Washer  
Capacity: Standard

Model(s) Maytag  
MLE2000A

Manufacturer, model number and appliance type used to determine ENERGY STAR eligibility.

Estimates of the appliance's annual energy use (the lower the number, the more energy efficient the appliance and the less it costs to run.)

This Model Uses  
**314 kWh/year**

ENERGY STAR  
A symbol of energy efficiency

**Energy use (kWh/year) range of all similar models**

Uses Least Energy	Uses Most Energy
177	1298

The ENERGY STAR symbol appears on the labels of most qualified appliances.

The range of ratings for similar models from "uses least energy" to "uses most energy." This scale shows how a particular model compares to others.

An estimate of the annual cost to run this model.

**Clothes washers using more energy cost more to operate. This model's estimated yearly operating cost is:**

**\$25**

When used with an electric water heater

Based on eight loads of clothes a week and a 2000 U.S. Government national average cost of 8.03¢ per kWh for electricity and 68.8¢ per therm for natural gas. Your actual operating cost will vary depending on your local utility rates and your use of the product.

Important: Read all of this label before consumer purchase to know the Federal Trade Commission's Appliance Labeling Rule (16 C.F.R. Part 1029)

### Terms and Conditions

**ELIGIBILITY:** This program offers rebates for making energy saving improvements to the home **after an ENERGY AUDIT**. Residential customers in the NAED service area are eligible for rebates. Work must be completed between January 1, 2010 and December 31, 2010. Limit: One rebate of 50% of the total cost up to \$500 per NAED customer of record per calendar year. Applications must be filed by December 31, 2010. NAED reserves the right to change any portion of this program or end this program at any time without notice.

**QUALIFYING PROJECTS:** The home improvement project must be part of the ENERGY AUDIT and meet energy efficiency requirements as specified. NAED or its designated representative reserves the right to inspect or otherwise verify installation of energy efficient measures.

**REBATE AMOUNTS AND PAYMENT:** Applications will be processed as they are received. Please allow 4 to 6 weeks for processing rebate payments for qualified applicants.

**VERIFICATION:** ORIGINAL sales receipt indicating work orders, product, purchase location and price must accompany the Application.

**Incomplete applications will be returned.**

**DISCLAIMER:** NAED does not guarantee that implementation of energy efficiency measures or uses of the equipment purchased and/or installed under this program will reduce energy usage or reduce energy costs. NAED makes no warranty, expressed or implied, with respect to any equipment purchased and/or installed including but not limited to any warranty of merchantability or fitness for purpose. In no event, shall NAED be liable for any incidental or consequential damages.

**ADDITIONAL INFORMATION:** Additional information on NAED's energy efficiency programs can be obtained by calling NAED at 508.643.6310.
